This week I have included some mastery work in maths. These will allow your children to work on the objectives at an even greater depth. These tasks are not compulsory; use them if you feel your child needs more challenge.

## Dormice Remote Learning Plan 22/2/21

Don't forget your child has an emile, phonics bug and teacher your monster to read account if you want more challenge. These sites allow your child to play games that are progressive.

In writing, if your child would like more challenge try spelling 2 syllable words like bedroom, farmyard etc.

On twinkl there are many interactive EYFS resources that you can do on the computer with your child,

Rainbow maths:

This a sheet with a number of calculations to be completed within a time each day. Give your child 1 minute to try and complete all the calculations for that day only. Your child must complete them independently. You will find that as time goes on your child will begin to re-call the calculations more easily. Your child may remain on a sheet for a couple of weeks before they move on up to the next sheet.
