The image shows the Great Wall of China, a massive stone structure built along a ridge. The wall is made of large rectangular stones and features several watchtowers with traditional tiled roofs. In the foreground, the wall curves away into the distance, surrounded by dense green trees and bushes. The sky above is a clear, pale blue.

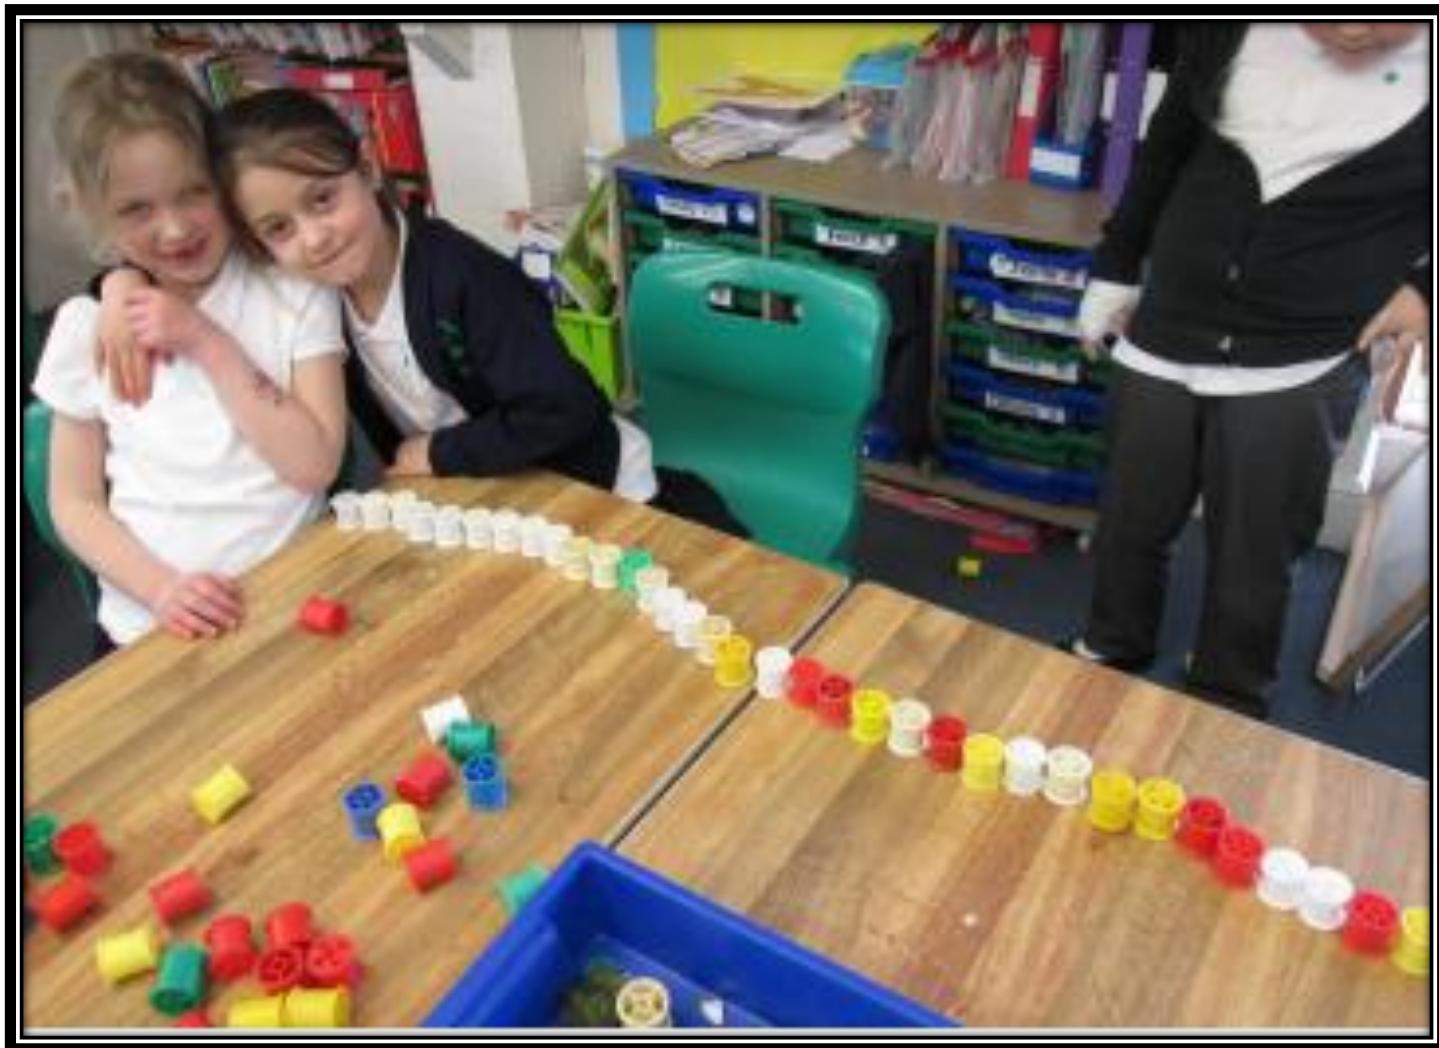

THE GREAT WALLS OF WOODSIDE

We built our own Great Wall of China by choosing items from the classroom.

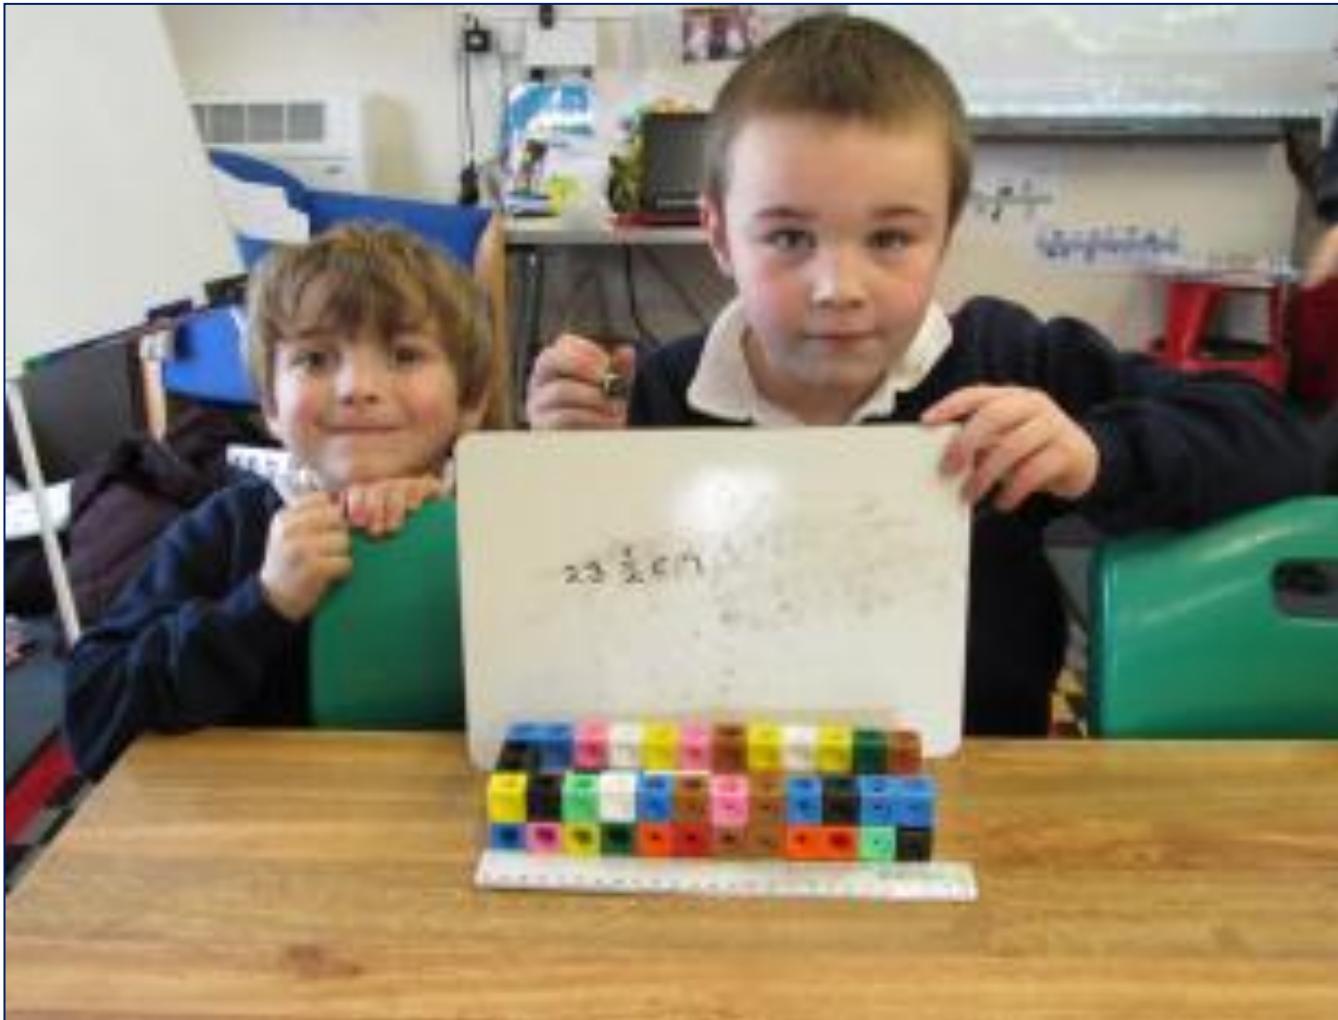

Then we measured them.

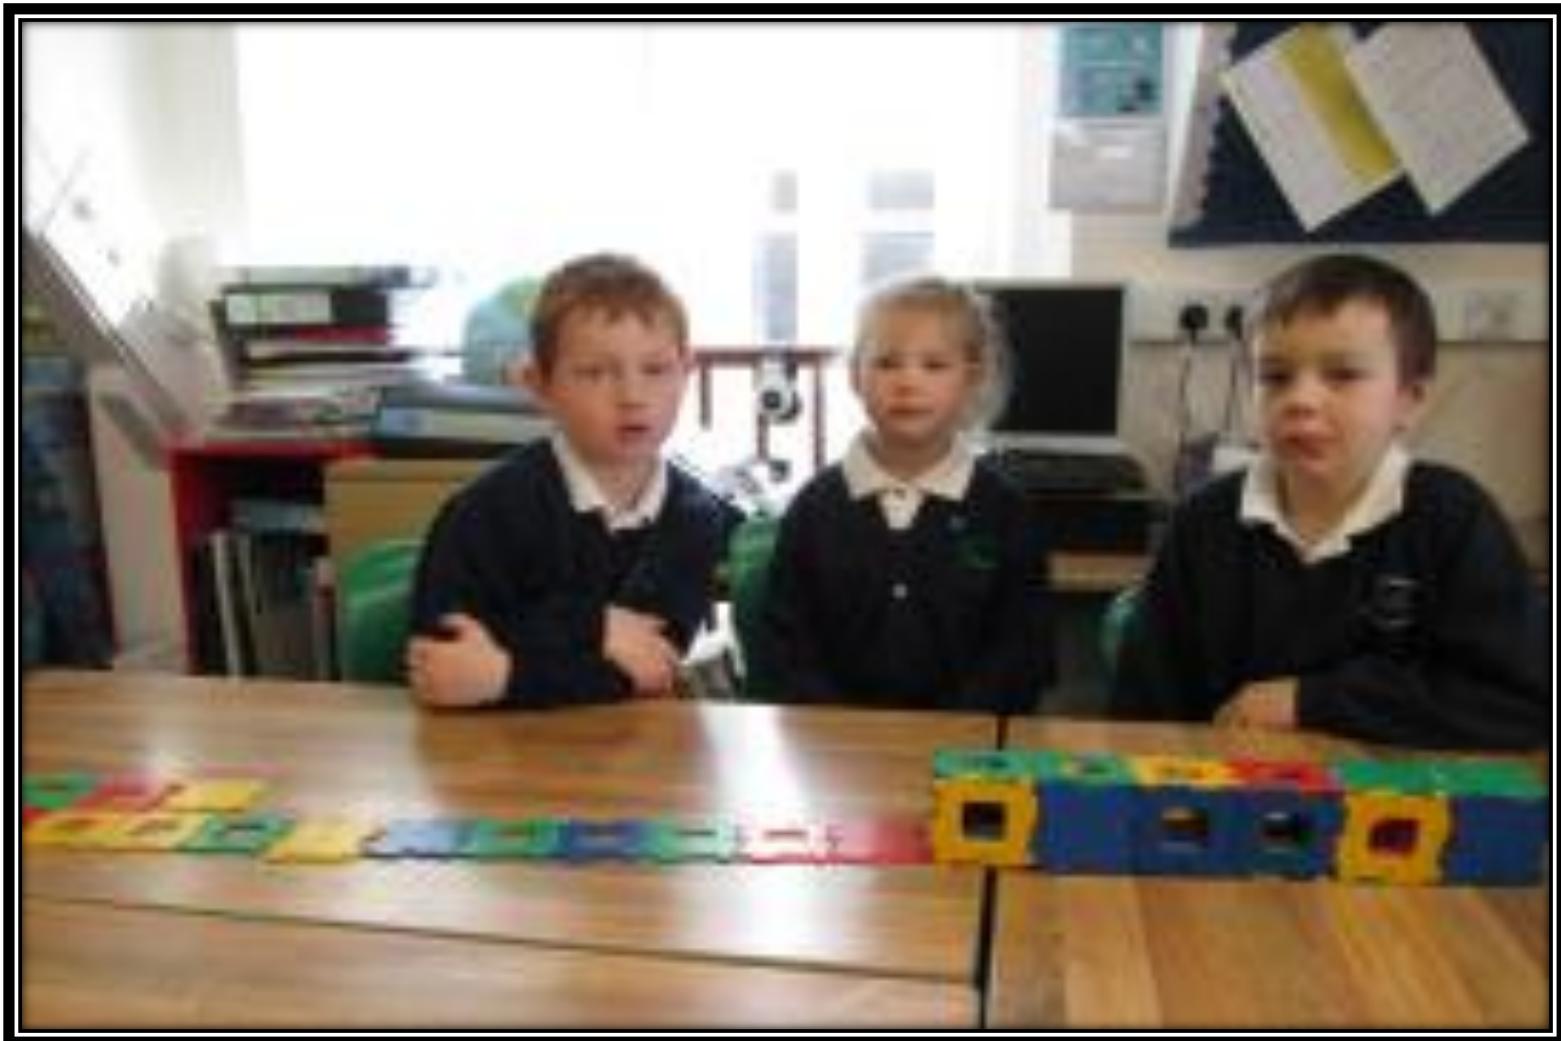

The Great Wall of Cotton Reels

The Great Wall of Multilink

The Great Wall of Polydron

The Great Wall of Playdough

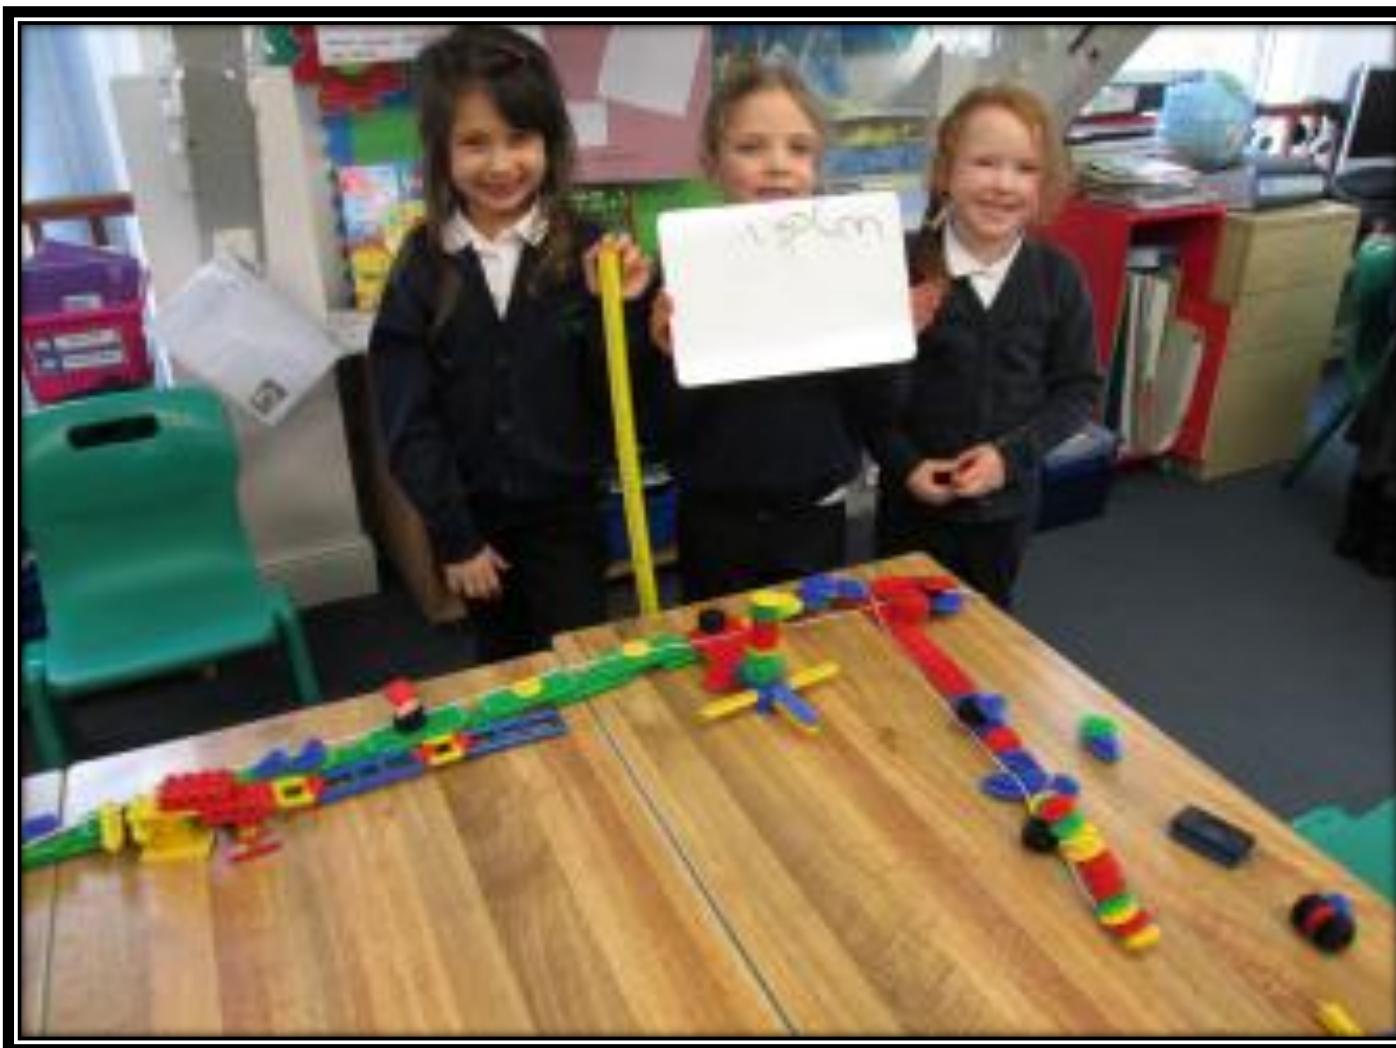

The Great Wall of Multilink

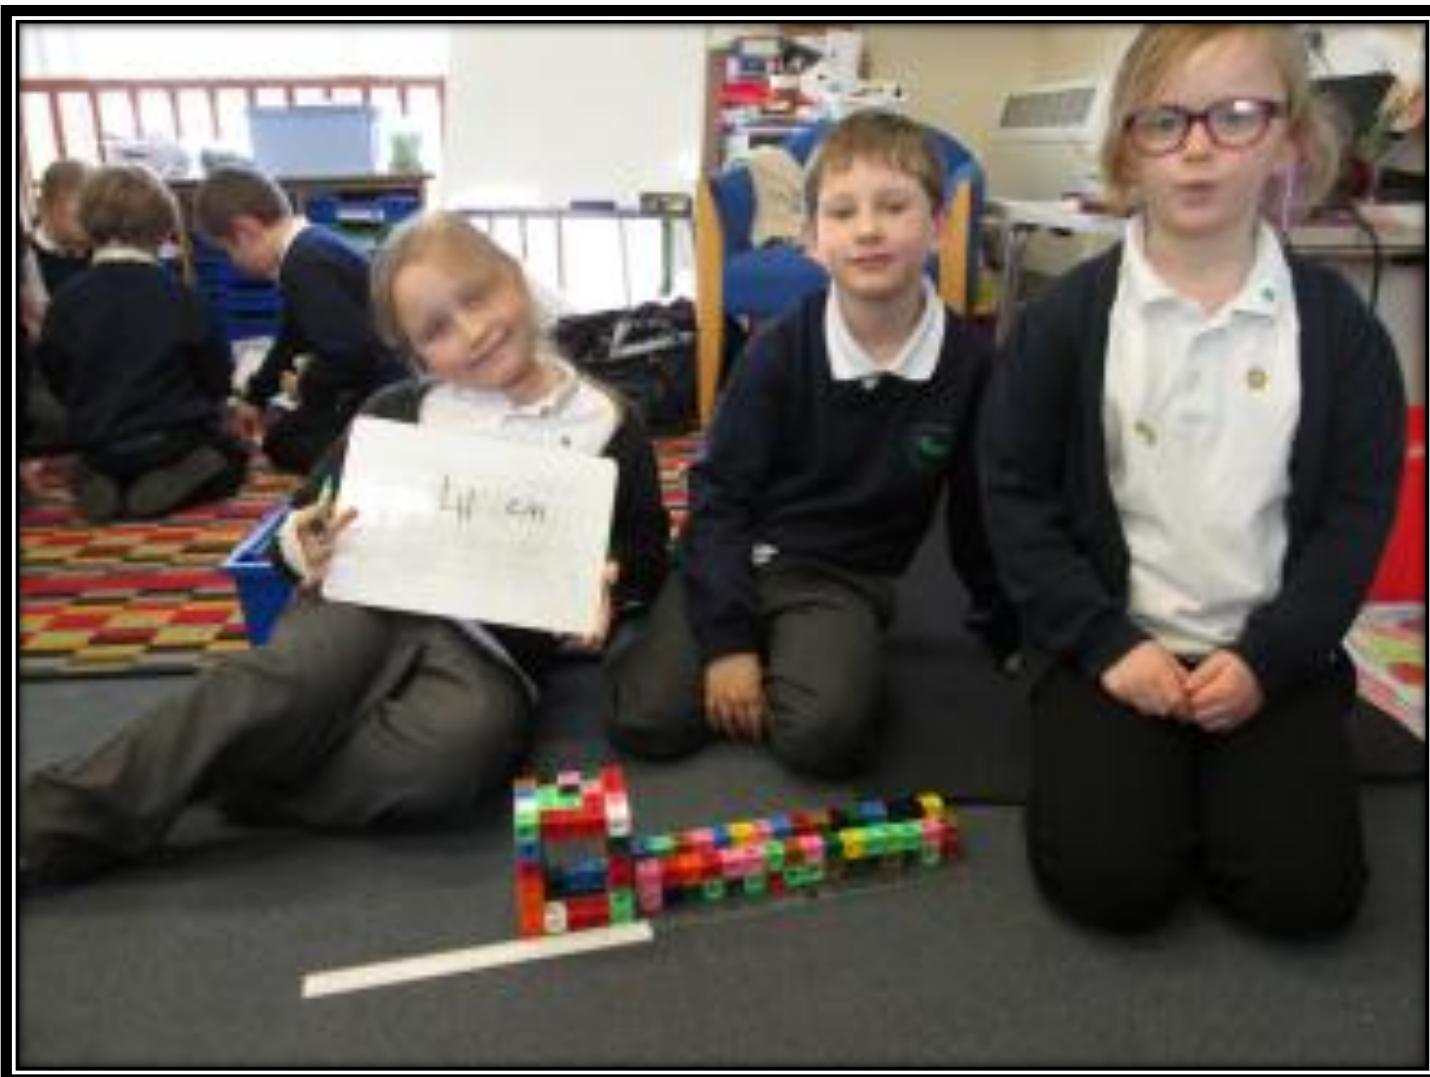

The Great Wall of Marble Run

The Great Wall of Stickle Bricks

The Great Wall of Multilink
