Year groups Pre-School Reception Little Dormice and Dormice

Personal, Social & Emotional

This very important part of the children's education is addressed weekly in class through circle times and whole school assemblies. The children discuss matters relevant to them, their behaviour, British Values and their relationships with others within the school. Circle Time is used to promote good discussions in an atmosphere of mutual trust and respect, with all children sharing their thoughts.

Physical Development

Each day we have a focus on the development of both fine and gross motor skills. Children have access to cutting and making tools as well as threading and play dough activities in order to develop fine motor control. Activities made available in the outdoor environment help the children to develop large motor skills such as riding bikes and using balls, hoops, beanbags and painting.

Communication and Language

Children will take part in sessions to express themselves effectively, showing awareness of listeners' needs. We encourage the children to use past, present and future forms accurately when talking about events that have happened or are to happen in the future. Each day the children will listen to a story, and will be encouraged to re-tell key events and respond to what they hear with relevant comments, questions or actions. Little Dormice will develop speaking skills through show and tell during register. Reception will do this on a Friday

Our topics are chosen with the children and each week the children's ideas feed into our weekly planning. In addition to the wide variety of child initiated activities there remains a balance of focussed teaching sessions both in whole class and small group settings. Each child has access to both the inside and outside environment in order to help access learning and follow interests.

Terms 1 and 2 (Sept to Dec)

Topic Theme:
Nice to meet you.

Why? This will run for the first 2 weeks. After this the children and team will decide on a new theme each week which will be up on the notice boards. Children will feel happy and settle more quickly into the setting.

Daily lessons and activities are planned according to the seven areas of learning outlined in the Early Years Foundation Stage document. The Prime Areas include areas shaded in red, the specific areas are shaded in green.

MATHEMATICS:

Daily maths lessons will include practical activities to encourage the children to match, sort, compare, count and order. We will be covering early number work on numbers 0-20 with emphasis on simple problem solving. We will be developing the children's understanding of space and shape with a focus on 'flat' 2D and 'full' 3D shapes. The children will take part in weekly sessions.

You can help at home by: Applying number and shape knowledge across practical counting activity will be very beneficial. Encouraging children to set the table with the correct number of knives, forks, spoons etc.

Teachers: Mrs Fawkes, Miss Haskett

LITERACY

Reading, writing, speaking and listening skills are taught each and every day. Children are taught both as a whole class and in small groups according to the teaching focus of the session.

WRITING: We focus on writing the sounds that we know and the correct formation of letters. Emphasis will be placed on encouraging the children to understand the importance of writing as a means of communication through 'free' writing and more structured activities.

READING: An important element of the initial language work will be to develop an enjoyment of books and stories through discussion and handling of picture books. Once the children have acquired the phonic knowledge to enable them to start to decode words reading books will be sent home.

UNDERSTANDING THE WORLD:

Children will explore their new environment both inside and out, whilst understanding what makes us each unique. **THE WORLD:** The children will observe about similarities and differences in relation to places, objects, materials and living things.

TECHNOLOGY: Children are taught computer skills and have the opportunity to use these skills when working on the computer in the classroom.

You can help at home by: Giving the children any opportunity to further develop their keyboard and mouse skills as well as using tablets.

PEOPLE AND COMMUNITIES: The main focus this term is Harvest, Autumn, The Christmas Story, Diwali. You can help at home by: talking about things you celebrate at home as a family

EXPRESSIVE ARTS AND DESIGN:

The children will have the opportunity to work with a variety of media and will be introduced to a range of techniques when drawing, painting and model making. The children are also encouraged to develop imaginative role play based upon their own experiences.
