MARY ANNING

When Mary was a little girl, her father took her and her mother to the beach to look for fossils.

Her parents' husband's was called Richard and Mary.

she was one of nine children and her family was very poor.

in 1810, Mary Anning's father died.

She sold fossils for money to help her family.

one day she made an astonishing discovery; and giant fossil of something that the world had never seen before.

Mary Anning was a famous fossil hunter.

MARY ANNING

Mary Anning was born in May 21 1799
 Date death March 9 1847
 She had very little money
 She was the first one to find a complete sea monster

Mary Anning was a famous fossil hunter
